

“LUCIA MARESCHI Award 2015”

The best clinical case

This Award is reserved to all graduates in dentistry that are not Active Members of other scientific societies in the field of endodontics, **duly registered in the National Congress in 2015 IEA.**

To participate the candidate must deliver to the Secretariat before **September 7 2015**, the documentation relating **a case report** of a single or multi-rooted tooth with or without periapical lesion.

The material required should consist in:

- Short CV of the candidate with personal data and contact details,
- Brief introduction to the case on a Word document, maximum 20 lines, with description of the diagnosis, the technique of root canal preparation, the instruments used and the filling technique,
- Preoperative radiography done with centering device,
- Intraoperative x-ray with instruments at the working, or proof of cones, or a photograph of the pulp chamber adequately open that testifies the use of the rubber dam,
- Postoperative radiography performed with projection similar to the preoperative one,
- X-ray control with the post-endo restoration
- X-ray of at least two years control, with evidence of the disappearance of periapical radiolucency (if present at the time of treatment), or it's failure to appear (in the case of it's absence ab initio).

The cases documented in digital format, or with conventional radiographs set in frames and put in order within a binder, when received

by the Secretariat will be then evaluated by the Members Admission Commission in accordance with the following criteria:

- Accuracy of the presentation of the case,
- Quality of radiographies , **both in conventional and digital format,**
- Technical quality of the endodontic treatment,
- Evidence of complete healing in cases with preoperative periapical lesion,
- Quality of the post-endo restoration

Under equal conditions, the treatment of a multi-rooted tooth will have more value than the treatment of a single-rooted one and the treatment of a tooth with a lesion more value than that of a tooth without preoperative lesion.

The winner will be announced and awarded during the Congress on the occasion of the Social Dinner (Friday, October 2, 2015). The best clinical case will be placed in the AIE website.

The Italian Academy of Endodontics offers the winner the **free membership** for **one year** (2016).

To the winner is also offered the following kit, kindly made available by: **isasan**

3 packs of Techole hollow posts, 1 New TechCem, New TechCore 1 A, 1 New TechBondDC and 1 Tech Biosealer Endo
